Sarah Abidi

Senior Test Engineer | API, Cloud & Integration Testing

Noida, India | 7309026640 | abidi.sarah18@gmail.com | linkedin.com/in/sarah-abidi-b49702157 | GitHub: Aahra

PROFESSIONAL SUMMARY

Senior Test Engineer with 8 years of experience in manual, API and system integration testing across enterprise media-domain applications. Strong hands-on expertise validating AWS-based workflows (S3, SNS, SQS, Lambda, CloudWatch), REST/SOAP APIs with Postman and Swagger UI, and log monitoring with Sumologic. Experienced in Agile/Scrum delivery, legacy-to-cloud migration testing, security-focused API testing and production support. Certified AWS Cloud Practitioner and Google Cloud Certified Generative AI Leader.

CORE SKILLS

Testing:	System Integration Testing, End-to-End Testing, API Testing, Functional Testing, UI Testing, Regression Testing, UAT, Client Acceptance Testing, Test Planning, Test Case Design, Test Data Management
API & Web:	Postman, Swagger UI, REST, SOAP, YARP (authentication / authorization middleware validation)
Cloud & Monitoring:	AWS (S3, SNS, SQS, Lambda, CloudWatch), Sumologic, AMQ
Tools & Process:	JIRA, Azure DevOps (TFS), Visual Studio 2022, Agile, Scrum, Kanban, SDLC, STLC, Defect Tracking
Databases:	DB2, MySQL, PL/SQL

WORK EXPERIENCE

Senior Test Engineer
Aug 2021 - Present

Coforge Limited — Noida, India

Project: New VMS (Media Domain) - Legacy to Cloud Migration

- Tested the migration of legacy media-domain applications to a cloud-based architecture, validating functional and business requirements end to end.
- Performed **System Integration Testing** and validated workflows across **AWS S3, SNS, SQS, Lambda and CloudWatch logs**, ensuring data integrity.
- Executed **end-to-end testing** between in-house applications and third-party applications.
- Contributed to a Security Enhancement project: performed **API testing** on domain service endpoints used by internal and external clients, validating authentication and authorization enforced through **YARP** middleware.
- Monitored and analysed application logs with **Sumologic** to identify and troubleshoot issues.
- Managed test cases, defects and requirement compliance using **Azure DevOps (TFS)** and **JIRA**.
- Worked as an individual contributor on production support projects: tested changes and bug fixes before release to the LIVE environment, collaborating closely with developers, business users and clients.

Analyst | Senior Software Test Engineer
May 2018 - Aug 2021

Wipro — Noida, India

Key Responsibilities

- Tested in **Agile / Scrum** teams across UI, integration, UAT and regression testing levels.
- Created test documentation including test plans, test cases and test data.
- Executed test cases, identified bugs and logged defects in **JIRA** through to closure.
- Worked with the client to define **client acceptance testing**, and specified and developed test scenarios for new and redesigned processes.

EDUCATION

Bachelor of Technology, Computer Science - Babu Banarasi Das University, Lucknow — 2014 - 2018 | 81.84%

Intermediate (Class XII), Science - City Montessori School, Lucknow — 2013 - 2014 | 92%

High School (Class X), Science - St Joseph Convent School, Varanasi — 2011 - 2012 | 90%

CERTIFICATIONS & TRAINING

Google Cloud Certified - Generative AI Leader — Aug 2026

Certified AWS Cloud Practitioner - foundational AWS cloud computing certification — Oct 2025

Summer Training, IIT Kanpur - Machine Learning: Practice and Theory — May 2017
